# DI WALLPAPER

Cotton yarn wallpaper is made from Ramie (China grass), which is a traditional Chinese textile material. Ramie has antibacterial and antiseptic characters, therefore, the cotton yarn wallpaper is a natural air-conditioning wallpaper for its outstanding breath-ability and hygroscopic qualities. The surface of this wallpaper is rough and durable. Our cotton yarn wallpaper are incredibly printed on various pattern designs to create the different rhythms leading to a wild variety of expression-depending on the color.
